

10 Surprising Tips to Fly at Your Next Triathlon

All of us go through miles and hours of training and racing. You get faster every year and become smarter every race. You hone in on your pace, power and nutrition. There are race highs and lows and there are times when you just hit a plateau! Your race times just do not seem to get significantly faster. You may find that you are putting in the high effort and just need that little extra to get you on the podium. Remember, professionals are well trained and have the genetic talent to race at very high levels and speeds. What set them apart from the other athletes on race day are technique, mental training, knowledge, and strategy. You may or may not be a professional or high ranking age group athlete. But you are looking for that edge, that edge that will get you in the top 10, that edge that will help you beat your training partner or local rival, that edge to PR!
