

Apple Pro Training Series: Motion 3

In this guide to Apples revolutionary motion graphics software, commercial artists Damian Allen, Bryce Button, and Mark Spencer teach you to create cutting-edge animations, show opens, promos, logos, and effects while you learn Motion 3. As with the other titles in the Apple Pro Training Series, each chapter represents a complete lesson with a commercial-quality project to work through as you learn. The authors begin with generators and quickly move on to Motions behavior-based animations, particles, filters, effects, replicator, tracking, and matchmoving. The best-selling book is fully revised to take advantage of the softwares new features: youll create sophisticated 3D environments, design painterly elements using customizable brushes and strokes, automatically create motion paths from moving images without tedious frame-by-frame keyframing, remove camera shake, and animate text with 3D effects. Includes companion DVD with project and media files.
