

This book presents a systematic introduction to airborne MTI (moving target indication) system design for use in the fields of earth observation, surveillance and reconnaissance, with particular regard to the suppression of clutter returns. New developments in the field and special aspects of airborne MTI radar are included and make this book the definitive text on the principles of STAP.

Deceived (Left Behind: The Kids Collection Book 9), What If I Had Never Tried It: Valentino Rossi The Autobiography, Optimization and Performance Analysis of High Speed Mobile Access Networks (Advanced Studies Mobile Research Center Bremen), The Greatest Moments, Family Crises (Emotional Health Issues), A Mans Heart, Vietnam #3: Free-Fire Zone, Sams Teach Yourself DirectX 7 in 24 Hours (Teach Yourself -- Hours), The Common Fossils of Missouri (Missouri Handbook),
