

Cosmetic and Toiletry Formulations, Volume 2

Cosmetic and Toiletry Formulations, Second Edition, Volume 2, contains more than 1,900 cosmetic and toiletry formulations, based on information received from numerous industrial companies and other organizations. The data represent selections from manufacturers descriptions made at no cost to, nor influence from, the makers or distributors of these materials. All of the trademarked raw materials listed are believed to be available, which will be of interest to readers concerned with raw material discontinuances. Each formulation in the book is identified by a description of end use. The formulations include the following as available, in the manufacturers own words: a listing of each raw material contained; the percent by weight of each raw material; suggested formulation procedure; and the formula source, which is the company or organization that supplied the formula.
