

From domestic discipline to erotic spanking, Loki Renards Lesbian Spanking collection is comprised of four very different novellas with two unifying themes, lesbians and their love of spanking (and on occasion, their great need to be spanked.) You'll find naughty witches, sexy lawyers, polyamorous players and well, just plain brats, all getting and giving well deserved red bottomed spankings. In this collection:

Little Miss and the Law Did she know how much she looked like a little girl when she pouted like that? Mackenzie thought probably not as she watched the woman rifling through her handbag crossly. She was wearing a stiff, starched white shirt with a tie that made her look somewhere between the school girl she most definitely wasn't, and the executive Mackenzie guessed she probably was. Stephanie is a soon-to-be out of work journalist close to a meltdown of major misbehavior. Mackenzie is a strict lawyer with a penchant for rescuing damsels in distress. When the two meet, sparks fly. Can Mackenzie curb Stephanie's bratty ways? And more importantly, can she mend a brat's broken heart?

Witch's Cat A modern lesbian romance with a magical twist, Witch's Cat follows the fortunes of Anita and Georgia. They're a normal couple if you don't count the cane in the corner and the potions in the basement. Anita is the seventh daughter of a seventh daughter of a seventh daughter and fancies herself quite the powerful witch. She'd rule the world, if only her strict (and completely non magical) girlfriend Georgia would let her.

Obeying Rigel A contemporary lesbian romance, Obeying Rigel is the tale of martial arts instructor Rigel and her reluctant student Sadie. "You strut through your life, giving everyone you meet attitude. Most people probably don't even deserve it. And you know that, but you keep doing it. You're waiting for someone who won't take it. Every time you make a snarky remark or a smart ass comment, there's part of you that wishes there was somebody around to put you firmly in your place. But there hasn't been anyone, has there?" Sadie's head spun as Rigel closed the final little bit of distance between them and lowered her voice. "Until now." When cocksure, laid-back drop out Sadie meets the wickedly attractive, yet stern Rigel, sparks fly. Unimpressed with her layabout lifestyle and outright bratty attitude, Rigel sets about making things very difficult for her little Sadie.

Lady Shark Forget everything you know, forget every lesson you were ever taught. All the rules have been broken, all bets have been called off. The world as you know it is about to disappear. I thought I knew how the game worked. I thought I had it all figured out, slinging high interest loans to people too stupid to know better or too far gone to have any other option. I had a nice car, a house in the suburbs. I had cable television, twenty four hour make up and shoes that matched my handbag. I was an apex predator at the top of my game. I thought I was untouchable. I was wrong. I'd forgotten one thing, one very important thing. It doesn't matter how big you are – there's always a bigger shark out there. In my case, that shark was a revolutionary named Scarlett Black. She didn't just want my money, she wanted me. All of me. She claimed my body, opened my mind and demanded nothing less than total obedience. She didn't get it.
