

Bullying Isn't Just Going to Stop Sorry, but it's true. Striving for a world without bullies is a great goal, but we live in the real world... right now. A world where people aren't shocked to see adults yell and call each other names, make fun of each other for size, gender, and race. It doesn't seem like a place that's going to care about kids doing the same. If they can't show better behavior, then why is the jerk who sits next to you in English going to be better? Does that mean you should give up and throw in the towel? NO!! OF COURSE NOT!! The key to dealing with bullies isn't to end bullying altogether (awesome goal, but not going to happen while you're in high school). The key is to make bullies obsolete. If they don't bother you, they cease to matter. Ask yourself: HOW AWESOME WOULD IT BE TO LIVE WITHOUT FEAR? You wouldn't worry about walking into school in the morning. You wouldn't waste time stressing about who you're going to run into at Starbucks (unless it's someone you have a crush on). Anything a bully says just rolls off your back. It doesn't even matter. Too good to be true? Nope. You Are Not Alone gives you all the tools you need to get through being bullied. All you have to do is be willing to make the changes in yourself. If you don't try, nothing will ever change. You Are Not Alone is designed to help get you to a mental place where bullies can't touch you. What's in the book? * a step by step guide on what to do if you're being bullied. * confidence boosting tips to instantly improve how you feel. * the truth no other book wants to tell you about life and bullies. * the MOST IMPORTANT secret on how to get bullies out of your head. * how to stop the bully within. * and the truth about you, that you're finally ready to hear. Is You Are Not Alone for you? Who this is for: * girls who are sick of being afraid * girls who want to be confident * girls who want things to be better and who are willing to work at it. * girls who are ready for a positive change. Who this isn't for: * mean girls * girls who tear each other down. * girls too afraid to change * girls who have already given up The right time is NOW This e-book will give you a mental place where bullies can't touch you. You CAN walk into school in the morning without worry. You CAN know the secrets to making bullies obsolete.
