

## Wolf Brothers (gay werewolf erotica, M/m)

While Jessica sleeps off her fateful night with Lance and Don, the two werewolves have some time to kill, and they use it to reminisce about the first time they met someone important to them. They share everything, including food, women, and each other, and this morning is no different.-----EXCERPT: While Rachel was considering this, and the ramifications it held for her worldview, the two men finished their coffee, the talk died down, and both men sat back in their seats, staring at each other. Rachel thought theyd begin fighting again at any moment, and she was correct. Both of them snarled at each other and jumped up, one tackling the other so quickly Rachel couldnt tell who made the first move. They were soon a tangle of limbs, much like you see in cartoons when characters fight. When they temporarily slowed every minute or so, Rachel could see the wounds theyd inflicted during their previous engagement had reopened, but neither man paid attention. Their rolling around took a turn as Blond rolled away from Brown, and Rachel watched as the transformation process shed witnessed earlier happened again, this time in reverse. The mans body, normally relatively hairless, grew fur all over, his torso shortened, and his facial features elongated till soon she was again looking at the figure of a wolf, which howled before diving once again toward Brown. Brown narrowly rolled out of the way as the wolf landed where hed just been, and responded by snarling himself. To Rachels additional surprise, he began to change as well, in much the same way as Blond, till instead of two naked men biting and fighting in front of her, she was watching two wolves go at it just as ferociously. Soon the wolf thatd been Blond had Brown in his jaw, and Brown went limp, and transformed back, looking at Blonds wolf eyes intently. Blond let the naked Brown go and transformed himself, face just in front of Browns. The

two looked at each other, Blond on top, Brown on the bottom. Blond leaned his head downward and the two kissed. To Rachel, it was a beautiful image; two men who had just finished attacking each other, now in a passionate and dominant embrace. Both of them were clearly turned on by their activity, and Rachel could clearly see their hard cocks in the firelight. As they continued kissing, Blond and Brown realigned their bodies and began feeling each other up all over, each running their arms up and down the other's body. It was quick, ferocious, and with all the open wounds Rachel could see, looked painful. In fact, she noticed each of them wince more than once when the other ran his powerful hands over a fresh cut. She could hear the sounds they made as they pleased each other, and practically feel the heat coming off them. Blond had one arm around Brown's head, pushing him down toward Blond's crotch. Brown looked at Blond in the eyes and moved down, obediently, kissing Blond's chest all the way down, as Blond leaned his head back, eyes closed. Now faced with Blond's hard cock, Brown opened wide and took it into his mouth all at once, raising his hand up to assist him in sucking on it. Blond howled with pleasure at Brown's expert attention.-----WARNING: This 3000+ word paranormal erotic short story contains graphic consensual oral and anal sex between two male werewolves in human form while a human woman watches them.NOTE: This story is a standalone sequel to Taken By Wolves also by Stella Hayne.
