

After seven years living as Alexandra Gastone, Milena Rokva is now free to be her true self, if only she knew who that was or had time to find out. Milena is in a race against time to bring down Perun, the very organization that trained her as a spy. Perun is no longer content to use their network of sleeper agents to protect her homeland and is maneuvered to take control of the world's energy markets, sending the globe into chaos. Working with her surrogate grandfather, Albert Gastone, his CIA friend Brad and her old handler, Varos, Milena finds herself embroiled in an epic spy game teamed with friends whose endgames do not necessarily align with her own. The only person Milena can truly trust is herself. Can Milena take down Perun, protect her fellow cadets and make a life for herself with her boyfriend, Grant, as well as the friends and family she's come to love as Alexandra Gastone? Buckle in for a wild ride as the Alexandra Gastone duology comes to a close.
