

New Zealand GolfCross

Just when you thought it was safe to walk on the fairway, you hear a strange noise. Is it a bird? Is it a bomb? No-its the new sound of golf. From the innovative, daredevil country that introduced bungee jumping comes a revolutionary new take on golf, NEW ZEALAND GOLFCROSS, a game where you shoot for goal instead of a hole, with a oval ball that really is smart. For many golfers, constantly assailed with information about the importance of the golf balls perfect roundness, it comes as a surprise to learn that the oval golf ball is considerably more stable and significantly easier to control than its round counterpart. In NEW ZEALAND GOLFCROSS, author Burton Silver chronicles the evolution of this remarkable game, explains the unique flight properties of the oval ball, and offers shot-making tips and strategies to take out onto the course. With Silver as your caddy, youll learn how to hit the ball straighter, longer, and with any degree of fade or draw. The deluxe presentation pack includes a competition-grade golfcross ball, along with a rubber tee adapter, so you can experience for yourself the advanced capabilities of the worlds first oval golf ball. Beautifully photographed on specialized cross-country courses, this book and its amazing ball are a must for all golf lovers and anyone who likes to think outside the round.

Media - GolfCross At present the only GolfCross courses are in New Zealand, but with the low New Zealand Kiwi ball (golf cross) - YouTube The Llao Llao GolfCross GoalGolf course, the first in the Americas, was Station Bush - GolfCross New Zealand has created a beginner-friendly game by making a rugby-shaped golf ball that is hit through uprights.
