

Around the Field -- Vol. 2

Around the Field -- Vol. 2 is the second volume of a collection of stories about the everyday people who visit the Oshkosh airshow each summer. This book contains the stories that originally appeared in the 2002 - 2004 editions of the EAA fly-ins show daily. Author Hodgson met these people by just wandering through the grounds and striking up conversations with strangers. He talked with people at their campsite, beside their airplanes, in the exhibits areas, on the flightline, and more. You will meet the two guys who flew their Bonanza from Australia on a whim... The high school exchange student from Finland who was beginning a career in aviation... The guys from Texas who painted their plane like a furious chicken... And more.
