

## Beastly Bones: A Jackaby Novel

I've found very little about private detective R. F. Jackaby to be standard in the time I've known him. Working as his assistant tends to call for a somewhat flexible relationship with reality ... In 1892, New Fiddleham, New England, things are never quite what they seem, especially when Abigail Rook and her eccentric employer, R. F. Jackaby, are called upon to investigate the supernatural. First, members of a particularly vicious species of shape-shifters disguise themselves as a litter of kittens. A day later, their owner is found murdered, with a single mysterious puncture wound to her neck. Then, in nearby Gads Valley, dinosaur bones from a recent dig go missing, and an unidentifiable beast attacks animals and people, leaving their mangled bodies behind. Policeman Charlie Cane, exiled from New Fiddleham to the valley, calls on Abigail for help, and soon Abigail and Jackaby are on the hunt for a thief, a monster, and a murderer. *Beastly Bones*, the second installment in the series, delivers the same quirky humor and unforgettable characters as *Jackaby*, the book the *Chicago Tribune* called *Sherlock Holmes* crossed with *Buffy the Vampire Slayer*. A 2016 YALSA Best Fiction for Young Adults Title
