

This volume provides a one-stop resource, compiling current research on bioceramics and porous ceramics. It is a collection of papers from The American Ceramic Society's 32nd International Conference on Advanced Ceramics and Composites, January 27-February 1, 2008. It includes papers from two symposia: Porous Ceramics: Novel Developments and Applications and Next Generation Bioceramics. Articles are logically organized to provide insight into various aspects of bioceramics and porous ceramics. This is a valuable, up-to-date resource for researchers working in ceramics engineering.

Between Sundays, Volleyball: How to Improve Your Attack Play, NASA Handbook: Human Integration Design Handbook (HIDH) - Crew Health, Habitability, Environment, and Human Factors Design for Human Space Flight Programs, Lunar, Planetary, EVA (2014 Edition), Netware Decoder: A Dictionary of Terms and Commands, Porque Te Amo = Because I Love You (Spanish Edition), Comment publier un livre: Marketing pour auteurs (French Edition), Development Strategies Reconsidered: A New Synthesis,
