

## Proceedings of the Fourth European Conference on Software Maintenance and Reengineering: Reengineering Week Zurich University of Zurich, Switzerland February 29-March 3-March 2, 2000

Contains 26 contributions written by academics and industrial reengineers from the US, Canada, the UK, Europe, and Australia, covering a wide range of topics on software maintenance and reengineering including work on formal approaches, metrics, architecture recovery, transformations, change management, and other maintenance topics, as well as a number of case studies. Contributions are offered in the form in which they were presented but have been repaginated. Lacks a subject index.
