

Joese Coin Shop: Entry into Online Auctions (Pearson Cases in Supply Chain Management and Analytics)

This new business analytics case study challenges readers to help a retail coin shop owner build an Internet sale and auction site that complements his existing business while reaching customers who prefer to purchase online. Crystallizing realistic analytical challenges faced by companies in many industries and markets, it exposes readers to the entire decision-making process, providing opportunities to perform analyses, interpret output, and recommend the best course of action. Author: Charles A. Wood, Duquesne University.

The Applied Business Analytics Casebook: Matthew J. Drake, Ph.D Published by Pearson FT Press The first collection of cases on big data analytics for supply chain, in SCM, OM, and OR, these short, focused, to-the-point case studies
