

## Biker Bitch

Claire was a modest, respectable career woman now, with a husband and daughter to look after. But she hadn't always been. Years earlier she'd ridden with bikers, getting off on multiple sexual partners, on bondage and bdsm. She'd been a wild little slut who loved life on the edge. And then one day her old world intrudes on her new, when the bikers she used to ride with come back for her, demanding favors, and pulling her back into her wild life of bondage, gang bangs and sexual submission. What was worse, her daughter Regan was very much like Claire was at that age, bored and looking to experiment. Were they both going to wind up as biker bitches? Or would her boring husband surprise them all?
