BOOK 1 SURVIVAL MANUAL

Preface You could find yourself alone in a remote area—possibly enemy territory—with little or no personal gear. This manual provides information and describes basic techniques that will enable you to survive and return alive should you find yourself in such a situation. If you are a trainer, use this information as a base on which to build survival training. You know the areas to which your unit is likely to deploy, the means by which it will travel, and the territory through which it will travel. Read what this manual says about survival in those particular areas and find out all you can about those areas. Read other books on survival. Develop a survival-training program that will enable your unit members to meet any survival situation they may face. It can make the difference between life and death.

Contents

PREFACE vii

Chapter 1 INTRODUCTION . 1-1

Survival Actions . 1-1

Pattern for Survival 1-5

Chapter 2 PSYCHOLOGY OF SURVIVAL 2-1

A Look at Stress 2-2

Terrain 13-1

Environmental Factors . 13-3

Need for Water. 13-7

Heat Casualties 13-10

Precautions 13-11

Desert Hazards 13-12

Book 2 The Glider Flying Handbook

PREFACE The Glider Flying Handbook is designed as a technical manual for applicants who are preparing for glider category rating and for currently certificated glider pilots who wish to improve their knowledge. Certificated flight instructors will find this handbook a valuable training aid, since detailed coverage of aeronautical decision making, components and systems, aerodynamics, flight instruments, performance limitations, ground operations, flight maneuvers, traffic patterns, emergencies, soaring weather, soaring techniques, and cross-country is included. Topics, such as radio navigation and communication. This handbook conforms to pilot training and certification concepts established by the FAA.
