

# On Killing: The Psychological Cost of Learning to Kill in War and Society

ON KILLING is the study of what author Lt. Col. Dave Grossman has termed killology. This odd term describes, not killing between nations, but the exact circumstances involved when one individual ends the life of another individual, with the primary focus being on combat situations. I've sometimes wondered how I (someone who has never been anywhere near armed conflict) would fare on the frontlines, as killing another human being seems like an almost impossible psychological task.
