

## Rachel Ray & The Three Clerks: Two Anthony Trollope Classics

Two of British author Anthony Trollope's novels are in this Kindle eBook: *Rachel Ray* (1863) and *The Three Clerks* (1857). *Rachel Ray* is a woman who must cancel her wedding because of suspicions directed toward her intended husband by her sister and the pastors of her family's churches. *The Three Clerks* is inspired by Trollope's experiences as a clerk in the General Post Office; this is believed to be the most autobiographical of Trollope's novels. The story involves Harry Norman and Alaric Tudor. Harry falls in love with Gertrude, while Alaric pursues her sister Linda. About the author: Anthony Trollope (1815–1882) was one of the most prolific English novelists of the Victorian times. He wrote on political, social, and current affairs. He is best known for his *Barsetshire* series, which is a collection of six novels set in the fictitious English county of Barsetshire (located near where Dorset lies) and its cathedral town of Barchester. They revolve around the clergy and the gentry, and the political, amatory, and social climbing.
