It has been written as a general overview outlining the main things you need to know about this subject. Its a short read and a great start for people who know little about the subject. Bullying is the act of continual abuse where one party tries to enforce it's power over another. There are three types of bullying-physical, verbal, and relational (or social). Physical bullying occurs when the bully uses physical power or violence to coerce, intimidate, or harm the victim. This is usually the easiest form of bullying to identify and see the effects of, which is why it is often thought to be the most serious and the most commonly responded to in schools. Verbal bullying is when a person consistently uses words to intimidate or hurt another person. This can involved put-downs or verbal coercion. Verbal coercion is also fairly easy to spot, although many are not quick to respond to it, often misled by the false "sticks and stones may break my bones, but words will never hurt me" saying. All too often, bullying has been treated as a part of growing up, or something that will toughen . Recently, there have also been multiple suicides blamed on bullying. These must be stopped, and the only way to do so is by installing preventative programs in schools throughout the country. Even one suicide due to bullying is too many. This book will help you understand, prevent or detect this problem. What you are about to learn...
